Stain Removal:

Check for colourfastness by wetting a white cloth with product and rubbing an inconspicuous area. The cloth should remain unstained.

Spray sparingly onto stain and leave for 1 minute. Do not overwet. Blot the affected area using a disposable paper towel.

Difficult stains may need a second application or gentle rub with a soft brush, working from the outside edge into the centre, to avoid spreading the stain.

Once the stain has been removed, rinse well with clean water and blot the area completely dry.

Shampoo carpet or fabric if required.
